

**NOTICE OF PUBLIC SERVICE COMMISSION WORKSHOPS ON GRID INTEGRATION
OF ELECTRIC VEHICLES**

The Rules (*see*, 26 Del. Admin. C. § 3001) of the Delaware Public Service Commission ("Commission") provide for Aggregation to provide energy services which facilitate battery storage systems for Grid-Integrated Electric Vehicles and related technologies as well as for crediting in kilowatt-hours (kWh) for energy discharged to the grid from the Grid-Integrated Electric Vehicle's battery at the same kWh rate that customer pays to charge the battery from the grid. The Commission Staff intends to conduct information-gathering workshops to assess the grid integration of electric vehicles to formulate recommendations to the Commission, if necessary, whether further considerations to existing tariffs, rules, and/or other legal actions should be taken. Staff would estimate that three workshops might be necessary. Scheduling of future workshops will occur at the conclusion of the first workshop.

**The first workshop will be held at 9AM on Friday, June 21, 2013 at the Commission's Hearing
Room in Dover.**

The Commission Staff would welcome comments, suggestions, compilations of data, briefs, or other written materials concerning the provision of services to and from electric vehicles prior to the workshop date. If you wish to provide any such materials, they should be submitted on or before noon on June 19, 2013. Staff would prefer that such documents be sent in an electronic form via e-mail to john.farber@state.de.us. If computer access is not available, however, you should send such materials to the Commission at the following address:
